Royal II[®]
Flushometers...
a New Addition
to the Sloan
Family of
Products

The Sloan *Royal II*[®] diaphragm Flushometer offers EVERYTHING the Sloan Royal[®] has – and more. Its stunning new appearance provides a distinct design option and a strong advantage: the specification of the world's leading Flushometer for a premiere restroom design.

Water Conservation

Sloan's *Royal II*[®] engineered water saving:

- a non-hold open handle
- exclusive Dual Filtered Fixed Metering By-Pass Diaphragm
- no external volume adjustment

Appearance

The Sloan *Royal II*[®] offers:

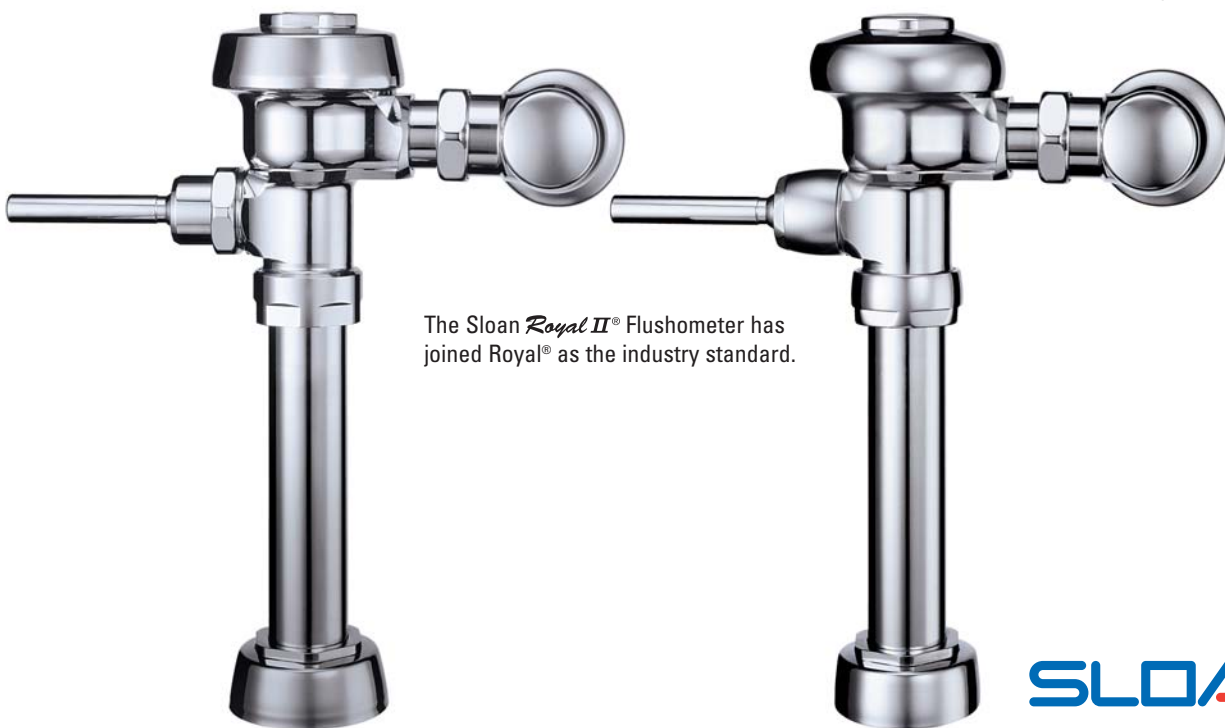

- New handle, one-piece design, for smoother lines
- Aesthetic cover accentuates the *Royal II*[®]'s new design
- New vacuum breaker couplings and flange add the finishing touches

Sloan *Royal II*[®] is ideal for use in all markets: commercial, hospitality, education and healthcare.

Simplicity and Performance

Superior performance and easy maintenance quickly make *Royal II*[®] preferred by architects, engineers and contractors more than all other brands combined.

- Sloan invented Dual Filtered Fixed By-Pass Technology
- Low consumption flushing with performance and accuracy
- Protection against run-on that can be caused by "dirty" water conditions
- Protection against deteriorating effects of chloramines and other water-borne chemicals
- ADA compliant

The Sloan *Royal II*[®] Flushometer has joined Royal[®] as the industry standard.
