## THE LEADER IN OUTDOOR RESIN MADE PRODUCTS

As an American owned and operated company, we use environmentally friendly materials and practices. One of our environmentally friendly materials is the unique resin-blend that we use to create our eco-friendly products. As the leading manufacturer and vendor of roto-molded planter pots and the only manufacturer of our proprietary, true composite PolySteel<sup>®</sup> lamp posts in the world, we are committed to the health and well being of the economy, the planet, and the future.

With the use of resin and PolySteel<sup>®</sup>, we offer products that are up to 75% lighter than traditional planters and lamp posts, virtually indestructible, maintenance-free and cost-effective. We have the perfect solutions for you no matter how big or small your project is. Our fully customizable products will fit the needs of your business to a "T".

	Tuscan Sun		Verdi Granite		Victorian Lace
	Violet		White		Wine

= MODERN STYLES/ COLORS

Please note that the colors on the color key and throughout this catalog are represented using the 4 color printing process. This process is limited in its authentication of actual hue. Although every effort was consorted to make the colors as realistic as possible, they are not exact. If tints and shades are critical, we recommend that sample chips produced from actual material be sent by TerraCast® Products.

TerraCast® Products is not responsible for typographical errors. Measurements in this catalog are rounded to the nearest quarter inch and may not be exact due to manufacturing variances.

Featured Image : TCG-6 Barrel Vase Planter in Monzonite Granite, Location: White Lake, MI.  
Top Image : TCF2M-24 in Terracotta. Middle Image : TBR-22 in Cobalt. Bottom Image : TRP-40 in Ash Granite.

**BAMBOO**

Holistic Asian garden design, with round, cylindrical, fluted, tapered design.

\*For color names and clarification, please refer to PAGE 1 or visit [WWW.TERRACASTPRODUCTS.COM](http://WWW.TERRACASTPRODUCTS.COM)

MODEL #	TOP(OD)	TOP(ID)	BASE(ID)	HT.	WT(LB.)
TCJ-4	23"	20"	14"	20"	9

**BARREL**

Round, cylindrical, tapered design that is great for decorative plants or small trees depending on size.

\*For color names and clarification, please refer to PAGE 1 or visit [WWW.TERRACASTPRODUCTS.COM](http://WWW.TERRACASTPRODUCTS.COM)

MODEL #	TOP(OD)	TOP(ID)	BASE(ID)	HT.	WT(LB.)

# TerraCast<sup>®</sup> IN NYC

Our planters can be seen throughout New York City, with spectacular installations in noteworthy locations such as Times Square, Herald Square and in the Flatiron District.

We are a proud vendor of the New York City's Department of Transportation. As seen here, our Step Planters and Vase Planters are used as a decorative border, creating a safety barrier for New York's pedestrians and auto traffic.

# QUARTER CIRCLE PLANTERS

Molded of the same durable one piece construction that TerraCast® has built its reputation on, the Quarter Circle Planter is the most VERSATILE planter TerraCast® has ever offered.

## QUARTER PLANTER OPTION

(ONE PLANTER)

USE TWO PLANTERS TO GET A  
HALF CIRCLE EFFECT!

46"L x 29"W x 18"H

WT. 33 (LB.)

## FULL CIRCLE OPTION

# TerraCast®

## BRAND YOUR CITY, PARK, BUSINESS OR PROJECT WITH CUSTOM GRAPHICS

We can create branded options for promotional products that are much more permanent than a banner, sign, pen or tote bag.

This is a unique opportunity to cast your brand onto a beautiful TerraCast® planter and set it into the design as a permanent fixture in the landscape or interiorscape of your project!

If you are a vendor, you could design a line of planters with your logo and slogan on them, and install them inside or outside of your customers' establishments. It's a permanent promotional opportunity that offers great value for your customers as well as your company. Call one of our Customer Service agents to help you with your project.

## SELF-WATERING OPTION FOR PLANTERS

TerraCast® offers Self-Watering System solutions. Whether you have interiorscape or outdoor hardscape projects requiring Self-Watering solutions, TerraCast® has an option. The entire breath of TerraCast® planters offer Self-Watering solutions. Visit our website or call us to learn more about the benefits of Self-Watering Planters. We have solutions for new installations and for existing projects that require a retrofit.

Your greenery stays greener because the plants stay healthier with consistent moisture. It won't under-water, waste water or over-water. There's an over flow port for exterior planters to prevent over filling, which protects your plants from drowning. The plants will thrive because they only consume what they need. This decreases the chance for yellowing leaves, root rot and helps to prevent mold and fungus associated with over-watering.

Tremendous cost savings can be achieved by utilizing TerraCast® planters' Self-Watering options. Reduce daily watering to weeks in the summer and longer in the winters. Man hours are reduced, maintenance interruptions are minimized, and a better utilization of personnel is achieved.

Apple Valley

## WHY TerraCast® PLANTERS

All of our planters are made in America. Every single one of our offices, warehouses, facilities and factories stand proud on US soil. We craft our resin from a Linear Low Density Polyethylene that is up to 100% recycled and recyclable material. Our planters are made through a three-step process called rotational molding, or roto-molding, making our final product lighter and virtually indestructible.

TerraCast® planters come in a rainbow of solid colors, along with six proprietary faux-stone blends. We can match and design any color or texture for your resin products. One or two people can easily unload TerraCast® planters from the truck and move them to their destination on-site, saving on overall time and project costs. In the end, your decision to buy with TerraCast® will save you money, fuel the American economy, protect the environment, and help to save the world.
